- As the oldest and wisest in Children's Ministry, F.I.S.H. is one way for 5th graders to learn the importance of leadership, discipleship, and stewardship through monthly fun activities and service projects.

- F.I.S.H. is for FIFTH graders only - no 4th graders or 6th graders. It's an exclusive group!

- Fifth grade friends from the neighborhood, scouts, school, sports, etc. are always welcome!

- A parent or other adult must sign in and out each FISH student—no drop offs are allowed. You may give permission to another adult to sign your child in or out.

- Parents are asked to please respect our guidelines with regards to RSVP's. We set up these deadlines in order to have enough food and supplies for our events. When our numbers change at the last minute this can greatly affect any planning we have done.

- RSVP's for each monthly event begin the day following the previous month's event.

- FISH is a great way for 5th graders to slowly start down the path of independence. Having said that, though, parent help is especially needed at the December Scavenger Hunt and is required for our March Missions Madness and April Celebration!

- If you have one, wear your F.I.S.H. t-shirt on F.I.S.H. event days/evenings!
